Disclosure		Reference	Omission(s)
103-1	Explanation of the material topic and its Boundary	The Gym Group plc Annual Report and Accounts 2021, p.36	
103-2	The management approach and its components	The Gym Group plc Annual Report and Accounts 2021, p.36	
103-3	Evaluation of the management approach	The Gym Group plc Annual Report and Accounts 2021, p.36	
403-1	Occupational health and safety management system	<p>a) The Gym Group's health and safety management system conforms to the Health and Safety Executives HSG65 Managing for Health and Safety.</p> <p>i. Legal requirement to put in place suitable arrangements to manage health and safety. [Management of Health and Safety Regulations 1999 S.5(1)]. Plus a more general duty to ensure</p>	

		<p>the health, safety and wellbeing of all effected by our undertaking [Health and Safety at Work Act 1974].</p> <p>ii. The Gym Group's management system conforms to HSG65 Managing Safely, INDG163 (rev4) Risk Assessment.</p> <p>b) The health and safety management system covers all employees and contractors: based in operational gyms [employees, self-employed trainers, contract cleaners, concessionaires, contractors, consultants]; head office [employees: static workers, field / remote workers]; sites managed under Construction Design Managers [Principle Constructor, Principle Designer, contractors, consultants].</p>	
403-2	Hazard identification, risk assessment, and incident investigation	<p>a) Local checklists and inspections, audits [3rd party], risk assessments [3rd party]</p> <p>i. Digital training program for new employees / ongoing review</p> <p>ii. Health, Safety and Wellbeing Working Group and Sustainability Board Committee. Rolling annual development plan</p> <p>b) Processes for workers to report work-related hazards and hazardous situations: Hazard [including incidents and near misses] reporting is completed digitally using our health, safety and compliance portal. Reports are not anonymous, senior management has central visibility of completed incident reports. The company also has a Whistleblowing Policy which enables employees to confidentially report qualifying disclosures to executive employees in line with The Employment Rights Act 1996.</p> <p>c) Our policies and processes do not include a specific reference that allows our staff to remove themselves from work situations that they believe could cause injury or ill health, and how, in such a situation, they would be protected from reprisals. We will include this in our next review of our policies due in November 2022.</p> <p>d) Processes to investigate work-related incidents: Accident / incident reporting tools via digital platform. External health and safety consultancy to support investigations plus 24/7 advice line available to all managers. Internal Health and Safety team also support all high profile investigations.</p>	
403-3	Occupational health services	<p>a) Occupational health services to identify and eliminate hazards and minimise risks, and how quality of service is ensured, and how workers access the service: Employee assistance program is available to all employees, as well as eye test vouchers for employees who use Display Screen Equipment (DSE) habitually as part of their standard workday. The EAP service is a confidential, nationwide, 24/7, 365 days-a-year service. Accredited counsellors and information specialists offer support and advice on health and wellbeing issues, as well as offering a counselling service and information on personal legal and financial matters. The service is provided externally by BHSF Ltd.</p>	

403-4	Worker participation, consultation, and communication on occupational health and safety	<p>a) Processes for work participation and consultation in health and safety management system: Health and Safety Governance: Health and Safety Heroes working group; Health, Safety and Wellbeing Working Group, Sustainability Board Committee. Health and Safety Heroes consult with their regions on health and safety matters and cascade back to the working group. Any key issues are escalated to the Health, Safety and Wellbeing Working Group for further discussion and action.</p> <p>b) Description of formal joint management-worker health and safety committees: Health and Safety Hero responsibility: discuss Health and Safety matters with colleagues within their region and escalate back to working group and support on initiatives and projects. These meetings are scheduled quarterly in line with the Health, Safety and Wellbeing Working Group. In 2021 we were able to meet three times virtually. Health and Safety Heroes are IOSH Managing Safely qualified and some hold NEBOSH General Certificate. Additional development plans include: advanced cardiac awareness training, fire evacuation train the trainer and NEBOSH General Certificates for those who do not already have it.</p>	
403-5	Worker training on occupational health and safety	<p>a) Occupational health and safety training:</p> <p>In 2021 we developed a bespoke suite of health and safety training called Gym Safe. Every employee is required to undertake this training upon joining The Gym Group and review each unit annually.</p> <p>A health and safety manual has been developed and issued to employees and shared via our company intranet system along with several operational toolkits. These are reviewed annually along with our standard Health and Safety Policy review.</p>	
403-6	Promotion of worker health	<p>a) We provide healthcare insurance as a benefit of employment for senior managers within the organisation.</p> <p>b) Employees also have access to a team of mental health first aiders along with several resources via the mental health and wellbeing hub on Core, the company's communication platform. Every employee (and workers who are not employees) have free, unlimited access to and use of the gym facilities for themselves and a friend or family member.</p> <p>c) We have recently appointed a Diversity and Inclusion and Wellbeing Lead who will support in the development and delivery of our wellbeing strategy.</p> <p>d) The former Health and Safety Steering Group has now incorporated wellbeing to become the Health, Safety and Wellbeing workstream, and will support in developing wellbeing KPI's and objectives and driving the wellbeing strategy forward.</p>	
403-7	Prevention and mitigation of occupational health and safety impact directly	<p>a) Occupational health and safety risks associated with business activities, operations and services are identified through a structured risk management</p>	

	linked by business relationships	<p>program which reviews high level more tactical risk through to operational risk within each gym.</p> <p>Several specialists are appointed to carry out risk assessments outside the competency of internal The Gym Group stakeholders including fire, legionella and asbestos.</p> <p>A number of personal risk assessments are carried out with employees who undertake certain activities which may affect their health and safety including Display Screen Equipment (DSE), lone worker assessment, health assessments, manual handling and those of a vulnerable disposition (e.g. expectant mother, child / young worker).</p>

GRI 413: Local Communities

This material references Disclosures 103-1 to 103-3 from GRI 103: Management Approach 2016 and GRI 413-2 from GRI 413: Local Communities 2016

Disclosure		Reference	Omission(s)
103-1	Explanation of the material topic and its Boundary	<p>Most of our 24 hour access gyms are located in urban centres, providing easy access for members, but also mean that our operations are in close proximity to our local communities who live and work nearby. We are committed to supporting and engaging with our local communities. Below are some of the processes we consider when performing development work in local communities.</p> <p>Environmental impact assessment: The development work that The Gym Group undertakes is below the thresholds set by the Environmental Impact Assessment (EIA) Regulations and therefore the planning applications for TGG do not fall within the scope of EIA. As such its requirements and processes are not applicable. TGGs development and application work generally comprises changes of use of existing buildings, fit out work and minor external changes to existing buildings. Where TGG do occupy new buildings, the development has been secured consent by the developers and TGG responsibility relates only to the discharge of conditions related specifically to their use.</p>	
103-2	The management approach and its components		
103-3	Evaluation of the management approach		

		<p>Community Consultation and Engagement: The development work that TGG undertakes is not of a nature which requires community consultation or engagement as part of the preparation of schemes. The majority of planning applications relate to the change of use of existing buildings and internal fit out works to enable the use. The Local Planning Authority consults with local residents and other stakeholders as part of the application process and TGG (and their consultants) review and respond to any matters arising as part of the standard application process in the normal way. As with EIA, on larger schemes where TGG are taking a new building unit as part of a wider development, consultation with the local community and stakeholders will have been undertaken by the developer at application stage, however TGG involvement is post-consent.</p>	
413-2	<p>Operations with significant actual and potential negative impacts on local communities</p>	<p>Environmental / Amenity Matters: The 24-hour use of TGG operations has the potential to impact on our local communities. TGG employs consultants to assess the existing environment and the proposed use and to develop mitigation measures to ensure that the proposals have no unacceptable impact and are in line with the required planning policies and British Standards. The planning application process provides for the review and confirmation of the proposals to ensure compliance. Where operational issues do arise, TGG (and their consultant team) work with the local Environmental Health Officer and/or local representatives as relevant to review and address any issues.</p> <p>One case of residents complaining of noise caused by treadmills at one of our gyms has been reported to us in 2022. We have investigated the matter and put remedial measures in place that have significantly reduced the noise/vibration issue, however, we decided to add a further layer of acoustic measures in place. An assessment of a random selection of TGG sites in locations across the UK was undertaken in 2019 to understand the extent of complaints and issues being raised to Local Authorities. The report concluded that the controls and mitigation employed by TGG was successful at delivering 24 hour uses without undue impact on the local community or amenity.</p> <p>Gym Network available here: https://www.tggplc.com/about-us/at-a-glance</p>
